

AMENDMENTS TO THE CLAIMS

Claim 1. (currently amended). ~~A Method~~ method for manufacturing wood structures, ~~wherein~~ wherein:

1) the starting material formed by a basic wood type ~~material, formed by a basic wood type~~, is subjected to a preservative heat treatment, and wherein undesired parts are removed from the starting material so as to obtain semi-products;

2) the semi-products are combined into a jointed wood structure by finger jointing with the use of glue; and

3) the jointed wood structures are combined into a laminated wood structure by lamination.

Claim 2. (currently amended) ~~The Method~~ method as claimed in claim 1, wherein the basic wood type is formed by coniferous wood.

Claim 3. (currently amended) ~~The Method~~ method as claimed in claim 1, wherein the glue is formed by polyvinyl acetate glue in combination with a hardener ~~or by a thermosetting synthetic resin glue.~~

Claim 4. (canceled)

Claim 5. (canceled)

Claim 6 (new). The method as claimed in claim 1, wherein the glue is a thermosetting synthetic resin glue.

Claim 7 (new). The method as claimed in claim 2, wherein the glue is formed by polyvinyl acetate glue in combination with a hardener.

Claim 8 (new). The method as claimed in claim 2, wherein the glue is a thermosetting synthetic resin glue.

Claim 9 (new). A building element for a building, which building element contains a wood structure manufactured in accordance with the method as claimed in claim 1.

Claim 10 (new). A building element for a building, which building element contains a wood structure manufactured in accordance with the method as claimed in claim 2.

Claim 11 (new). A building element for a building, which building element contains a wood structure manufactured in accordance with the method as claimed in claim 3.

Claim 12 (new). A building element for a building, which building element contains a wood structure manufactured in accordance with the method as claimed in claim 4.

Claim 13 (new). A building element for a building, which building element contains a wood structure manufactured in accordance with the method as claimed in claim 5.

Claim 14 (new). A building element for a building, which building element contains a wood structure manufactured in accordance with the method as claimed in claim 6.
